Subject: Engelbright Dam

Dear Mr. Snow:

I would like to take this opportunity to voice my concerns about the proposed study to improve spawning habitat on the Yuba River. I am a long time resident of the area and an owner of a houseboat on Engelbright. I am concerned about the environment and that is why I would like to give my input to this situation.

I will strongly oppose any recommendations to remove the dam or convert the dam to a "dry" dam. I do encourage the retro-fitting of the dam with a fish ladder or some other means of allowing the fish to move upstream past the dam.

Sincerely,

Kevin Mallen

Associate Engineer
